Using `biblatex` you can display bibliography divided into sections, depending of citation type. Let's cite! The Einstein's journal paper (Einstein, 1905) and the Dirac's book (Dirac, 1981) are physics related items. Next, *The LaTeX Companion* book (Goossens et al., 1993), the Donald Knuth's website (D. Knuth, n.d.), *The Comprehensive Tex Archive Network* (CTAN) (Greenwade, 1993) are LaTeX related items; but the others Donald Knuth's items (D. E. Knuth, 1968, 1973) are dedicated to programming.
